Endowment – unrestricted

(The Trustees of Deep Springs invest all endowment funds in a diversified portfolio including equities and fixed income assets and by policy spend no more than a specified percentage of the endowment to support operations each year. The current policy is to spend 5% of the average value of long term investments at the end of the previous three fiscal years. The distinction between Restricted and Unrestricted Endowment is that TDS may use more or less than the percentage specified by the spending policy from the Unrestricted Endowment when necessary to meet the educational needs of Deep Springs, while use of funds from the Restricted Endowment is limited by the spending policy.
